The Birmingham-based design star loves uniting opposites—the simple and the ornate, the modern and the antique—in his stylish interiors. Here, he talks to us about the Schumacher patterns at the top of his list.

The Wave
Black 69420

Fabric

"This is an instant classic. I re-covered a pair of Italian side chairs in this fabric by Miles Redd. The graphic design played well with the chairs' neoclassical details."

Komodo
Forest Green 5007342

Wallpaper

"This beautiful emerald green wallcovering would make any room feel like a jewel box. I used this in a client's living room to make a dramatic statement."

Incomparable Moiré
Ink 70415

Fabric

"I love a great moiré. This one in a deep blue is a very recent favorite. I can't wait to upholster the walls of a client's bedroom in this."

In his Alabama home, floor-to-ceiling curtains create a stunning backdrop for Brown's collection of vintage finds and antique treasures.
